---

1. AddressGrabber

With AddressGrabber you can quickly enter contacts into ACT!. Just highlight on the address and with one click, AddressGrabber Suite intelligently recognizes and populates contact details like First Name, Last Name, Title, Company, Street, City, State, Zip, Phone, Fax, Email address & Web site address and automatically enters them into your ACT!. It saves 80% of your address data entry time.

2. Turbo Lookup

Using Turbo Lookup you can lookup for a particular contact in ACT!, by just typing a partial contact name, phone number, company, email or a combination of them and the matching contact instantly pops up in ACT! It helps you to find your contact in no time. Lookup contacts instantly using partial information. Eg: To Lookup "Steven Johnson" - Just type "st jo"

3. Time Zone Lookup

With Time Zone Lookup you can know the current time and time zone of the ACT! contact. Eg: When an ACT! contact is selected, AddressGrabber Suite automatically displays the contact's current time and timezone. It helps you to prioritize your calls based on the timezone.

4. Schedule Activities

With Quick Scheduler you can schedule activities for a contact in ACT!, by just typing the activity in simple English Eg: "Meet John at 5 EST". AddressGrabber Suite takes in all the activities to be performed and assigns it to the corresponding contact in ACT!.
