LeadGrabber Pro – Builds list of contacts from the Internet

LeadGrabber Pro is a B2B List building tool with powerful web-extract macros and email appending technology. Enables you to build more custom tailored & more up-to-date contact lists than you can buy from any list vendor.

Sales, marketing and recruiting professionals can use this to jump-start B2B sales & marketing campaigns. LeadGrabber Pro speeds-up the list building and email appending processes.

Highlights and Features

Build Business Email Lists – If you want to build a list of targeted email ids of business professionals for an email marketing campaign, you can use LeadGrabber Pro to capture emails from search results.

Build List of Professionals in an Industry – If you want to target business professionals in an Industry, you can use LeadGrabber to build the people list for you. Enter relevant Job title and Industry into the software. LeadGrabber will search the Internet with your input and build the list of B2B professionals with their business contact information.

Build List of Companies in an Industry - For building a list of companies in a niche segment, you can use LeadGrabber to build the company list for you. Enter keywords or the self-described language of these companies into the software. LeadGrabber will search the Internet with your input and build the list of companies with their business contact information.

Build List from Professional Social Networks - Social networks are a rich source of high quality business leads. LeadGrabber allows you to find and extract contact information of your prospects such as name, job title, email address, company, phone, etc. from professional social networking sites.

Who can use LeadGrabber Pro?

- Sales and Marketing Professionals
- Recruiters
- Anyone who wants a list of leads that cannot be bought from anywhere
- Anyone who wants to build their leads database
- Anyone who wants to fill missing email and phone information in CRM

Pricing :

MSRP $3495 Per License / Year
